

# PRISM

# Chroma

Introducing **Chroma**: Prism's collection of twelve harmonious colors designed to work together in any trio, as seen in No. 15 "Curve" on page 55 of Vogue Knitting Spring/Summer 2020.

Or opt for a larger selection to use in any gradient colorwork.

Also a great tool for choosing accent colors: simply pick the main colors, then go across the wheel to find the color that will provide the perfect pop.

These colors work well together because of carefully controlled saturation and tone. Available now and in stock in Petite Madison and Mia2; more options of yarn to come!

Clockwise from top:  
Marigold, Wheat, Oregano, Thyme,  
Ocean Breeze, Bluebell, Larkspur, Lilac,  
Hydrangea, Old Rose, Adobe, Cantaloupe.
